Eucalyptus Radiata is primarily an essential oil for the respiratory system as it has good anticatarrhal properties. It is a powerful expectorant and mucolytic with good ability for fluidification. Eucalyptus Radiata has long lasting effects and is particularly indicated for children.*

Eucalyptus Radiata has good infection-fighting properties for both acute and chronic respiratory infections, and is effective for the flu. Its high content of 1,8 cineole makes it a good choice for diffusion into a room when someone has a respiratory infection.*

Eucalyptus Radiata is also a cooling essential oil due to its high concentration of 1,8 cineole. This gives it the ability to control a fever.*

Eucalyptus Radiata is a strong antiseptic, yet it is non-toxic. A good anti-viral and an energizer to the body, it can be very effective in cases of chronic fatigue and immune deficiency.*

**USES**

- Make a chest rub with Eucalyptus Radiata, Tea Tree, and Lavender. Put 5 drops of each into 1 ounce of Grape Seed Oil and massage over the lung area. If there is also ear congestion you can massage a small amount around the ear. (Do not drop essential oils directly into the ear.)

- Eucalyptus Radiata blends well with Tea Tree and the two can be diffused together in a child’s room when they are congested and can’t sleep. Diffuse for 15 minutes, repeating every 2 to 3 hours.

- Mix 10 to 12 drops in warm water for a soothing, cooling bath to relieve aching muscles.

- Use Eucalyptus Radiata neat on the tips of the toes (sinus reflex points) and on the pad of the foot (lung reflex points); one drop on each foot for small children, 2 drops for older children and 3 to 4 drops for adults.

- Apply 10-15 drops on the absorbent inner core of a nasal inhaler, cap the bottom, and inhale as needed.*

**responsible cautions**

- Non-toxic, non-irritant, non-sensitizing, with no known contraindications.

- Keep out of reach of children and pets.

- If you are pregnant, nursing, or under a doctor’s care, consult your healthcare provider prior to use.

- Store away from sunlight, at room temperature, with the lid securely tightened.
