

# Perfume Mists

*Uplift your body and senses while draping your skin in an invisible veil of light moisture and hydration with our all-over body perfumes featuring therapeutic essential oils.\**

Essential oils are plant-based, don't contain any unnatural ingredients, and are a lot stronger and more concentrated than chemical perfumes. When used properly, they don't have toxic side-effects and dangers found in many over-the-counter beauty products and prescription pharmaceuticals. Aromatic essential oils can help relax the body, ease the mind, and balance the emotions. Diffusing/misting essential oils is one of the best ways to enjoy their aromatic benefits.\*

White Willow Bark Extract and Aloe Vera Leaf Juice lend their powerful anti-inflammatory and antioxidant properties to help moisturize and protect skin while naturally hydrating and reducing the appearance of fine lines, wrinkles, and blemishes.\*

## Suggested Use

Apply any time. Generously spray over the entire body. Reapply as desired throughout the day.\*

Use only as directed. For external use only. Avoid contact with eyes and mucous membranes. Stop use if irritation occurs.\*
